HOT SPRINGS SWEEP BY FIRE

Water Plant Gone, Dynamite Used
to Stop Flames.

2,000 HOMELESS CARED FOR

Fanned by Forty-Mile Gale, Flames
Sweep Through Costly Hotel Dis-
trict of City—Monetary Loss Es-
timated at \$10,000,000.

WHAT THE FIRE DID.

Destroyed one side of busi-
ness district and residence
section of Hot Springs, Ark.
Estimated loss will total
\$10,000,000; 2,000 persons are
homeless.
Palatial hotels, famous the
country over, reduced to ashes.
Water and power plant &
burned early; city in dark-
ness.
Governor may proclaim mar-
tial law.

Hot Springs, Ark., Sept. 6.—Fire
which started in a negro's cabin at
3:30 o'clock in the afternoon was
slowly dying out at the foot of West
Mountain, the southern extremity of
Hot Springs, at midnight after reduc-
ing to a smoldering mass of wreck-
age an area more than a mile in
length and from seven to ten blocks
wide in the eastern section of the
city.

The monetary loss is roughly es-
timated at \$10,000,000.
Governor Hays has arrived in Hot
Springs and probably will order a
military patrol to the burned district.

United States troops also are ex-
pected from Little Rock to add to the
guard on the military reservation.

Two Thousand Persons Homeless.

It is estimated that 2,000 persons
are homeless. So far as can be ascer-
tained there were no fatalities and
the few persons hurt suffered only
minor injuries.

Among the buildings destroyed
were: The city light, water and power
plants, county court house, high
school building, Park hotel, Moody
hotel, St. Louis, Iron Mountain and
Southern Railroad station and shops,
the Arkansas sanatorium. Smaller
buildings by the hundreds were re-
duced to ashes.

Few Save Valuables.

But few of those whose homes
were burned saved any of their household
effects and guests of the hotels gave
little heed to their valuables and lug-
gage in their flight.

Before midnight the task of check-
ing the flames was abandoned and the
combined fire fighting forces turned
their efforts toward keeping the fire
away from the center of the city.

Early in the evening Mayor McLen-
don ordered all saloons closed and a
mass meeting of citizens at the city
hall. Two hundred and fifty special
officers were sworn in to patrol the
fire swept district. There was no dis-
order.

Homeless Cared For.

All the homeless have been cared
for temporarily and plans have been
started to systematize the work of
succor. Many offers of assistance
have been received, but it is believed
that outside aid will not be needed.

As a result of the destruction of the
water and light power plants street
car service was abandoned and news-
papers and other industries which
have depended on motive power from
the city's plants are crippled.

General Manager Dillon of the pub-
lic utilities commission states that a
temporary light and power service
will be established within thirty days,
and within three months the public
plants will be working to their capac-
ity again. The normal gas supply
was not interfered with.

Origin of the Fire.

The fire originated in a negro dwell-
ing on Church street, near Malvern
avenue, just east of the Army and
Navy hospital, shortly after 3 o'clock,
and spread quickly to the south and
east.

A number of small dwellings, dry
as tinder, as a result of an extended
drought, were easy prey for the flames,
which within a few minutes were be-
yond control of the local fire depart-
ment.

From this region the fire spread to
another section, then to the residence
district.

No fatalities had been reported.
Special trains brought additional ap-
paratus from Little Rock, but water,
dynamite and every available means
of fighting fire had failed to check the
flames for hours after the fire started.

Gale Fans Flames.

At times early in the night, the gale
reached a velocity of forty miles an
hour, and three times the shifting
wind currents changed the course of
the fire. Twice it was headed for the
main business district, the last time
shortly before 9 o'clock, when by the
free use of dynamite the combined
fire fighting force succeeded in di-
verting the course of the fire toward
South Hot Springs.

NEWLANDS FOR TARIFF MEASURE

Announces He Will Not Oppose
Administration Bill.

LA FOLLETTE CAUSES DELAY

Nevada Democratic Senator Relieves
Minds of Senators—Insurgents Will
Compromise on Income Tax Amend-
ment—Brady in Attack.

Washington, Sept. 6.—Senator Fran-
cis G. Newlands of Nevada, whose
stand on the tariff bill had caused his
Democratic colleagues some concern,
brought relief to administration lead-
ers upon his return from the West.

The Nevada senator, though de-
termined to make a fight within the
party lines, assured his colleagues
that he would stand by the bill as it
reached the senate for a vote.

"I never have contemplated at any
time making any fight on the tariff
outside the party caucus," was Sena-
tor Newlands' statement just before
entering the Democratic caucus.

Senate leaders predicted that all
amendments would be disposed of and
that the bill would go to a vote if Re-
publican leaders would consent to
limit debate.

Senator Simmons, chairman of the
finance committee, said that he would
not seek to limit Senator La Follette
in his discussion of the textile sched-
ules and for that reason might not
get a vote before Tuesday, but he
thought the bill could be put upon its
passage by that time at the latest.

Compromise Income Tax.

Income tax differences within the
majority were settled with an amend-
ment compromising between the high-
est rates on large incomes advocated
by the original Democratic "insur-
gents," Senators Thompson, Reed and
Vardaman, and the lower rates of the
original bill.

In the senate Senator Brady of Ida-
ho attacked the administration from
the standpoint of the wool grower and
western farmer. He opposed free raw
wool as disastrous to the wool indus-
try and criticized the proposed tariff
rates on lead and zinc.

BANDITS HOLD UP PAYMASTER

Bloodhounds Hunt Three Men Who
Take \$16,000.

Columbia, S. C., Sept. 6.—Three
men, each armed with two revolvers,
held up a deputy sheriff and two em-
ployees of the J. D. White Construc-
tion company at Parr Shoals, twenty
miles from here, and took from them
\$16,000 in currency representing the
pay roll of the company, which is
building a huge power dam.

Seven hundred employees of the
company, together with the sheriffs
and deputies of four counties, with
bloodhounds are hunting for the rob-
bers.

J. C. Joyner, the deputy sheriff, who
accompanied the pay clerks, was shot
in the thigh. His wound is not seri-
ous.

The robbery occurred just after
Paymaster Mahar, with Fred Bultman,
assistant cashier and Deputy Joyner,
had taken the money from the express
office at Parr Shoals.

The White Construction company has
captured a reward of \$600 for the
capture of the three bandits. The of-
ficers are without a clue as to the
identity of the men.

DAUGHTER OF ROYALTY
WORKING AS SERVANT.

London, Sept. 6.—A daugh-
ter of Minister of Agriculture
Pederson of Denmark is work-
ing in London as a servant.
The family which employed
her was astonished when her
identity accidentally became
known. The daughter of Min-
ister of Education Nielson is
also in London looking for a
similar position. The object of
the young women is to learn
the English language and do-
mestic life. Their parents ap-
prove of the method they have
adopted.

TWO DEAD IN MONTANA WRECK

St. Paul Road Freight Crashes Into
Rear of Work Train.

Butte, Mont., Sept. 6.—Two men
were killed and seven seriously in-
jured in a wreck on the St. Paul road
at Janney, fifteen miles east of Butte.
Two of the injured may die.

The dead are: J. L. Durham, brake
man; Gus Parosparius, laborer.

The men killed were riding in the
caboose of a work train. A west
bound freight train crashed into the
rear of the car. A car of ballast di-
rectly ahead of it made escape almost
impossible.

Unofficial reports of the wreck place
the blame on the engineer of the
freight, who is said to have disre-
garded signals left by the work train.

CHARLES C. M'CHORD.

Commerce Commissioner Is
Probing New Haven Wreck.

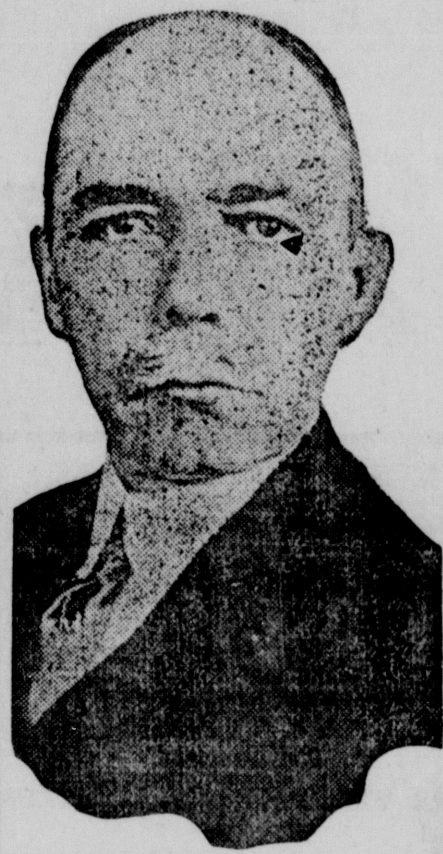

Photo by American Press Association.

TESTIMONY IS STARTLING

Federal Investigation of New Haven
Wreck Begins.

New Haven, Conn., Sept. 6.—At the
opening of the federal investigation
into the railroad wreck at North Ha-
ven, Commissioner M'Chord ordered
General Manager Bardo of the New
Haven road to produce the minutes
of all meetings of the New Haven di-
rectors since the Bridgeport wreck on
July 12, 1911. These would show, he
said, what action had been taken to-
ward the betterment of safety con-
ditions.

The examination of witnesses bris-
tles with startling passages. Engi-
neer Wands of the Bar Harbor Ex-
press testified that engineers on the
New Haven road frequently "drifted
by" danger signals in foggy weather.

John C. Kelly, train dispatcher,
previously had testified that weather
conditions on the morning of the
wreck were "very foggy," but that he
had not considered it necessary to
warn trains to reduce speed. Six
trains passed over this stretch of
track within half an hour, he said.

CAMINETTI GUILTY,
SMILES AT VERDICT

Diggs' Partner in Reno Elope-
ment Convicted.

San Francisco, Sept. 6.—F. Drew
Caminetti, son of the commissioner
general of immigration, was found
guilty on one count of the indictment
charging him with violation of the
Mann white slave traffic act.
Bail in the sum of \$10,000 was an-
nounced by Frank Freeman of Wil-
lows, Cal., and G. Bacigalupi of San
Francisco and was ready to be filed
with the United States marshal when
the verdict was announced.

Sentence will be pronounced on
Wednesday, Sept. 10, the day set for
sentencing Maury I. Diggs, jointly in-
dicted with Caminetti and convicted on
four counts.

Exceptions to the charge of Judge
Van Fleet as a whole and in part were
taken by counsel and a petition for
an appeal will be filed, as was an-
nounced in the case of Diggs.

Caminetti took the verdict lightly,
smiling a forced smile and nudging his
brother jocularly. His mother and
wife showed no emotion. They sat
with lowered heads, gazing into their
laps.

The first two counts charged that
he transported and aided in trans-
porting the two young women from
Sacramento to Reno in interstate com-
merce for the purpose of debauchery.

One count applied to each girl and
each count carried a maximum peni-
tentiary and a fine of \$5,000 fine. Thus
Diggs is liable to twenty years' im-
prisonment and \$20,000 fine, and
Caminetti to but five years and \$5,-
000 fine.

Roughly speaking, the verdict cor-
responds with the contention of the
government, which was that Diggs
was the self-constituted major domo
of the party, and Caminetti more or
less of a passive and pliant agent.

KILLS SHERIFF, THEN SELF

Double Tragedy Follows Attempt to
Arrest Young Man.

Sullivan, Ill., Sept. 6.—While at-
tempting to arrest Nimrod Huff, a
young farmer and son of Attorney
Rufus Huff of this city, Sheriff Flem-
ing of Moulton county was shot and
killed by Huff, who then ran across a
field and committed suicide with the
same weapon.

The double tragedy was enacted
late when the sheriff went to the Huff
farm, a mile outside of town, to ar-
rest Huff on a charge of making a
murderous assault on Miss Ada Pitt,
his sweetheart, who is employed in
this city.

MANY BUREAUS SEEK PUBLICITY

Agricultural Department Is
Well Advertised.

SENATORIAL AMBITIONS.

Many Congressmen Aspire to Posts in
Upper House—Investigation of Judge
Speer Raises Question of Recall of
Judges—Discussion of President's
Part in Forming the Tariff Bill.

By ARTHUR W. DUNN.

Washington, Sept. 6.—[Special.]—The
agricultural department has determi-
ned to no longer hide its light under a
bushel. The department has a publici-
ty man on the job who knows his busi-
ness, or at least he puts out every-
thing that can be of any interest to
the public concerning what the depart-
ment is doing. The assistant secretary,
B. T. Galloway, signs a regular weekly
news letter which is in the nature of
a small weekly paper and contains
much information regarding crop con-
ditions.

There is also an evident effort to cor-
rect the impression that the bureau of
chemistry and the pure food law went
out of business when Dr. Wiley resigned
as chief. Day after day announce-
ments are made showing that prosecu-
tions under the law are numerous and
successful.

"Advertising agriculture" the new
method might be termed, for certainly
the fact that the agricultural depart-
ment is doing business is kept before
the newspaper men of Washington.

They Are Still Hungry.
While there are not so many men
hanging around the departments ask-
ing for jobs as there were a few
months ago, Postmaster General Burleson
realizes that there is still an office
hunger in the country when he goes to
the capitol. Dozens of members
pounce upon him and ask about post-
offices in their district. As a former
member of congress Burleson is per-
sonally known to nearly every mem-
ber, and most of them familiarly call
him Albert.

The late John L. Wilson of Washing-
ton while a member of the house was
twisted with ambitions for the senate.
"I am one of 361 in the same boat,"
declared Wilson, the number of mem-
bers being then 361.

It would seem that every member of
the house is anxious for a seat in the
senate and when opportunity offers be-
comes a candidate. Three men from
Alabama in the house aspire to the va-
cancy in the senate, and there may be
a fourth if Underwood decides to en-
ter the race. It is natural that a man
should seek a six year term instead of
one of two years; also there is greater
prestige in being a senator than hold-
ing even a high place in the house.

Political "Facts."

During a discussion of the wool
schedule a Republican senator raised
a question as to whether a certain
statement was a fact, and Senator
Pomeroy of Ohio broke in with this
observation, "It seems to me that on
the Democratic side of the chamber
we must remember that when a fact
does not sustain the protective theory
it comes to be a fact." And every-
body enjoyed the sarcasm at the ex-
pense of the Republicans.

In the discussion of the proposed in-
vestigation or impeachment of Judge
Speer of Georgia several references
were made to the recall of judges.
Congressman Bartlett of Georgia de-
clared that unless the acts of every
judge were open and above board and
every opportunity given for the in-
vestigation of charges against a judge
on the bench there would be a demand
for the recall of judges, which could
not be resisted. Only by turning on
the light in all such cases could con-
fidence be restored regarding the judi-
ciary, was the idea of several men who
talked on the subject.

The President's Part.

The often discussed method of mak-
ing the tariff bill came up in the se-
nate during a colloquy between Norris
of Nebraska and Williams of Missis-
sippi. Norris was criticizing the fram-
ing of the bill by the Democratic can-
didates.

"The senator never knew a Republi-
can bill framed by a secret caucus,"
said Williams. "I doubt if he ever
knew of a Republican bill that was
not framed outside of congress."

"I doubt whether this bill was framed
outside of the White House," re-
torted Norris.

"The president has taken no part in
framing this bill except in connection
with two items," declared Williams.
"Those were the crux of the bill,"
replied Norris, "and the president had
more to do with framing the bill than
any one else, and the caucus obeyed
his will."

"Out For the Stuff."

Disclosures made by the lobby in-
quiry demonstrate that the desire to
obtain "easy money" makes crooks of
many men who are competent to earn
an honest living. "They are all out for
the stuff," was the comment of a man
who has been devoting much time to
the investigation. Much that is sor-
did, small and contemptible has been
developed during the hearing. But the
double dealing, the bribing of labor
leaders to turn informers against the
men who trust them is about the
worst chapter in the inquiry.

Cornered.
"Love conquers all things," said Ver-
gil. But he forgot the tight shoe with
a corn inside it.—Cleveland Leader.

NEW HAVEN WRECK.

After Destroying Wooden Pull-
mans Engine Came to a Stop.

© 1913, by American Press Association.

The White Mountain Special's heavy lo-
comotive stopped still upright after it had
smashed the third car of the Bar Harbor
express. The front of the engine was
splintered. The rear Pullman car, which
was wooden, was shattered in thousands
of splinters and hurled aside by the rush
of the big engine.

FIFTEEN ARE SLAIN BY TEACHER, AMUCK

Kills Wife and Children, Then
Fires Upon Townspeople.

Muehlhausen, Germany, Sept. 6.—
Fifteen persons are dead here as the
result of a school teacher named Wagner
running amuck with several re-
volvers.

Eight persons died shortly after
Wagner opened his murderous fusil-
lade, and seven others of twenty
wounded succumbed later. Four more
persons are in a precarious condition.

Wagner previously had killed his
wife and four children in the nearby
town of Degerloch, and then came to
Muehlhausen to continue his deadly
work.

When Wagner finally was overpow-
ered by infuriated townspeople, in-
jured by blows from the mob and
wounds from pitchforks, it was be-
lieved that he was insane.

A commission of examining judges,
however, after a lengthy hearing in
which Wagner rationally answered
their questions, declared the murder-
er to be normal mentally.

Although Wagner's arms had to be
amputated because of wounds, his
condition is said not to be dangerous.
He fired eight shots.

ENDICOTT IS RACE VICTIM

Child Also Is Killed as Pacer Hits
Fence.

Jackson, Mich., Sept. 5.—Harry
Endicott of Anderson, Ind., a brother
of "Farmer Bill" Endicott, the noted
automobile racer, and Mary Sarata,
of Jackson, a ten-year-old spectator,
were killed and three persons injured
here when Endicott's automobile,
hurtling around the race track crashed
through a fence after the front tires
blew up.

Before the crowd, which lined both
sides of the track, could realize what
had happened, the machine skidded
about twenty feet, swerved and
plunged directly at a flimsy fence to
the side of the course.

Endicott was crushed to death
against an iron railing, which the
wrecked car snapped as if it were a
pipe stem.

George Benedict, acting as mech-
anic for Endicott, was hurled from
the car and one of the rear wheels
passed over his body. He was taken
to a local hospital and is believed to
be injured internally.

Mary Sarata, was instantly killed.
The car, bounding from a road scrap-
er, crushed her to death in a twink-
ling. Miss Hall sustained a fractured
rib and numerous cuts.

An inquest will be held here Tues-
day.

STRIKE CAUSES SUICIDE.

Paterson, N. J., Sept. 6.—
The silk mills strike, recently
ended, is blamed for the death
of Bernard Blondeel, a promi-
nent broad silk manufacturer,
who shot himself at his home.
Members of the family said
that Mr. Blondeel lost heavily
during the strike.

Town Wiped Out by Fire.

Idabel, Okla., Sept. 6.—Fire prac-
tically wiped out Bokhoma, Okla., a
lumber village of 200 inhabitants, six-
teen miles east of here, causing a loss
estimated at \$300,000. Only the rail-
road station and a few negro cabins
were left standing.

HARRY THAW AGAIN WINS STAY

EMERY STIRS IRE OF PROBERS

Compares Mulhall's Work to That of
Congressmen.

Washington, Sept. 6.—James A. Em-
ery, Washington representative of the
National Association of Manufactur-
ers, aroused the ire of members of
the house lobby investigating commit-
tee by an indirect comparison of the
methods of Martin M. Mulhall, the
lobbyist, with those of congressmen.

Following the reading of one of
Mulhall's letters in which the lobby-
ist referred to keeping members away
from an important house committee
meeting, Emery asked if a private citi-
zen had not as great a right to ask
a member to stay away from a com-
mittee meeting or avoid a vote on the
floor as a fellow congressman had.

He added it was well known to ev-
ery man who has served two years in
the houses that members frequently
made requests of this sort.

Representative Stafford declared that
in his eight years of serving in the
house he had never heard of such a
request, and Chairman Garrett said
that in his opinion a member could do
"few things worse" and that such
absence would be "an offense against
constituents and the public."

OPIUM IN HEELS OF SHOES

Hiding Places Discovered When Cu-
stoms Officers Search Steamers.

San Francisco, Sept. 6.—Search for
smuggled opium on the Pacific Mail
liner Manchuria and the Toyo Kisen
Kaisha liner Chiyu Maru is continuing.
Customs officers found a small quan-
tity of the drug on the Chiyu Maru.

That found on the Chiyu Maru was
packed in metal shoe heels. There
were a dozen of these so shaped that
they could be fitted into soles cut
out of leather heels.

HOT SPRINGS SWEEP BY FIRE

Water Plant Gone, Dynamite Used
to Stop Flames.

2,000 HOMELESS CARED FOR

Fanned by Forty-Mile Gale, Flames
Sweep Through Costly Hotel Dis-
trict of City—Monetary Loss Es-
timated at \$10,000,000.

WHAT THE FIRE DID.

Destroyed one side of busi-
ness district and residence
section of Hot Springs, Ark.
Estimated loss will total
\$10,000,000; 2,000 persons are
homeless.
Palatial hotels, famous the
country over, reduced to ashes.
Water and power plant &
burned early; city in dark-
ness.
Governor may proclaim mar-
tial law.

Hot Springs, Ark., Sept. 6.—Fire
which started in a negro's cabin at
3:30 o'clock in the afternoon was
slowly dying out at the foot of West
Mountain, the southern extremity of
Hot Springs, at midnight after reduc-
ing to a smoldering mass of wreck-
age an area more than a mile in
length and from seven to ten blocks
wide in the eastern section of the
city.

The monetary loss is roughly es-
timated at \$10,000,000.
Governor Hays has arrived in Hot
Springs and probably will order a
military patrol to the burned district.

United States troops also are ex-
pected from Little Rock to add to the
guard on the military reservation.

Two Thousand Persons Homeless.
It is estimated that 2,000 persons
are homeless. So far as can be as-
certained there were no fatalities and
the few persons hurt suffered only
minor injuries.

Among the buildings destroyed
were: The city light, water and power
plants, county court house, high
school building, Park hotel, Moody
hotel, St. Louis, Iron Mountain and
Southern Railroad station and shops,
the Arkansas sanatorium. Smaller
buildings by the hundreds were re-
duced to ashes.

Few Save Valuables.
But few of those whose homes were
burned saved any of their household
effects and guests of the hotels gave
little heed to their valuables and lu-
gare in their flight.

Before nightfall the task of check-
ing the flames was abandoned and the
combined fire fighting forces turned
their efforts toward keeping the fire
away from the center of the city.

Early in the evening Mayor McClen-
don ordered all saloons closed and a
mass meeting of citizens at the city
hall. Two hundred and fifty special
officers were sworn in to patrol the
fire swept district. There was no dis-
order.

Homeless Cared For.
All the homeless have been cared
for temporarily and plans have been
started to systematize the work of
succor. Many offers of assistance
have been received, but it is believed
that outside aid will not be needed.

As a result of the destruction of the
water and light power plants street
car service was abandoned and news-
papers and other industries which
have depended on motive power from
the city's plants are crippled.

General Manager Dillon of the pub-
lic utilities commission states that a
temporary light and power service
will be established within thirty days,
and within three months the public
plants will be working to their cap-
acity again. The natural gas supply
was not interfered with.

Origin of the Fire.
The fire originated in a negro dwell-
ing on Church street, near Malvern
avenue, just east of the Army and
Navy hospital, shortly after 3 o'clock,
and spread quickly to the south and
east.

A number of small dwellings, dry
as tinder, as a result of an extended
drouth, were easy prey for the flames,
which within a few minutes were be-
yond control of the local fire depart-
ment.

From this region the fire spread to
another section, then to the residence
district.

No fatalities had been reported.
Special trains brought additional ap-
paratus from Little Rock, but water,
dynamite and every available means
of fighting fire had failed to check the
flames for hours after the fire started.

NEWLANDS FOR TARIFF MEASURE

Announces He Will Not Oppose
Administration Bill.

LA FOLLETTE CAUSES DELAY

Nevada Democratic Senator Relieves
Minds of Senators—Insurgents Will
Compromise on Income Tax Amend-
ment—Brady in Attack.

Washington, Sept. 6.—Senator Fran-
cis G. Newlands of Nevada, whose
stand on the tariff bill had caused his
Democratic colleagues some concern,
brought relief to administration lead-
ers upon his return from the West.

The Nevada senator, though de-
termined to make a fight within the
party lines, assured his colleagues
that he would stand by the bill as it
reached the senate for a vote.

"I never have contemplated at any
time making any fight on the tariff
outside the party caucus," was Sena-
tor Newlands' statement just before
entering the Democratic caucus.

Senate leaders predicted that all
amendments would be disposed of and
that the bill would go to a vote if Re-
publican leaders would consent to
limit debate.

Senator Simmons, chairman of the
finance committee, said that he would
not seek to limit Senator La Follette
in his discussion of the textile sched-
ules and for that reason might not
get a vote before Tuesday, but he
thought the bill could be put upon its
passage by that time at the latest.

Compromise Income Tax.

Income tax differences within the
majority were settled with an amend-
ment compromising between the high-
est rates on large incomes advocated
by the original Democratic "insur-
gents," Senators Thompson, Reed and
Vardaman, and the lower rates of the
original bill.

In the senate Senator Brady of Ida-
ho attacked the administration from
the standpoint of the wool grower and
western farmer. He opposed free raw
wool as disastrous to the wool indus-
try and criticized the proposed tariff
rates on lead and zinc.

BANDITS HOLD UP PAYMASTER

Bloodhounds Hunt Three Men Who
Take \$16,000.

Columbia, S. C., Sept. 6.—Three
men, each armed with two revolvers,
held up a deputy sheriff and two em-
ployees of the J. D. White Construc-
tion company at Parr Shoals, twenty
miles from here, and took from them
\$16,000 in currency representing the
pay roll of the company, which is
building a huge power dam.

Seven hundred employees of the
company, together with the sheriffs
and deputies of four counties, with
bloodhounds are hunting for the rob-
bers.

J. C. Joyner, the deputy sheriff, who
accompanied the pay clerks, was shot
in the thigh. His wound is not seri-
ous.

The robbery occurred just after
Paysmaster Mahar, with Fred Bultman,
assistant cashier and Deputy Joyner
had taken the money from the express
office at Parr Shoals.

The White Construction company
has offered a reward of \$600 for the
capture of the three bandits. The of-
ficers are without a clue as to the
identity of the men.

CHARLES C. M'CHORD.
Commerce Commissioner Is
Probing New Haven Wreck.

Photo by American Press Association.

TESTIMONY IS STARTLING

Federal Investigation of New Haven
Wreck Begins.

New Haven, Conn., Sept. 6.—At the
opening of the federal investigation
into the railroad wreck at North Ha-
ven, Commissioner M'Chord ordered
General Manager Barbo of the New
Haven road to produce the minutes
of all meetings of the New Haven di-
rectors since the Bridgeport wreck on
July 12, 1911. These would show, he
said, what action had been taken to-
ward the betterment of safety con-
ditions.

The examination of witnesses bris-
tles with startling passages. Engi-
neer Wands of the Bar Harbor Ex-
press testified that engineers on the
New Haven road frequently "drifted
by" danger signals in foggy weather.

John C. Kelly, train dispatcher,
previously had testified that weather
conditions on the morning of the
wreck were "very foggy," but that he
had not considered it necessary to
warn trains to reduce speed. Six
trains passed over this stretch of
track within half an hour, he said.

MANY BUREAUS SEEK PUBLICITY

Agricultural Department Is
Well Advertised.

SENATORIAL AMBITIONS.

Many Congressmen Aspire to Posts in
Upper House—Investigation of Judge
Speer Raises Question of Recall of
Judges—Discussion of President's
Part in Forming the Tariff Bill.

By ARTHUR W. DUNN.

Washington, Sept. 6.—[Special.]—The
agricultural department has determi-
ned to no longer hide its light under a
bushel. The department has a publici-
ty man on the job who knows his busi-
ness, or at least he puts out every-
thing that can be of any interest to
the public concerning what the depart-
ment is doing. The assistant secretary,
B. T. Galloway, signs a regular weekly
news letter which is in the nature of
a small weekly paper and contains
much information regarding crop con-
ditions.

There is also an evident effort to cor-
rect the impression that the bureau of
chemistry and the pure food law went
out of business when Dr. Wiley resigned
as chief. Day after day announce-
ments are made showing that prosecu-
tions under the law are numerous and
successful.

"Advertising agriculture" the new
method might be termed, for certainly
the fact that the agricultural depart-
ment is doing business is kept before
the newspaper men of Washington.

They Are Still Hungry.

While there are not so many men
hanging around the departments ask-
ing for jobs as there were a few
months ago, Postmaster General Bur-
leson realizes that there is still an office
hunger in the country when he goes to
the capitol. Dozens of members
pounce upon him and ask about post-
office jobs in their district. As a former
member of congress Burleson is per-
sonally known to nearly every mem-
ber, and most of them familiarly call
him Albert.

The late John L. Wilson of Washing-
ton while a member of the house was
twitted with ambitions for the senate.
"I am one of 361 in the same boat,"
declared Wilson, the number of mem-
bers being then 361.

It would seem that every member of
the house is anxious for a seat in the
senate and when opportunity offers be-
comes a candidate. Three men from
Alabama in the house aspire to the va-
cancy in the senate, and there may be
a fourth if Underwood decides to en-
ter the race. It is natural that a man
should seek a six year term instead of
one of two years; also there is greater
prestige in being a senator than hold-
ing even a high place in the house.

Political "Facts."

During a discussion of the wool
schedule a Republican senator raised
a question as to whether a certain
statement was a fact, and Senator
Pomeroy of Ohio broke in with this
observation, "It seems to me that on
the Democratic side of the chamber
we must remember that when a fact
does not sustain the protective theory
it ceases to be a fact." And every-
body enjoyed the sarcasm at the ex-
pense of the Republicans.

In the discussion of the proposed in-
vestigation or impeachment of Judge
Speer of Georgia several references
were made to the recall of judges.

Congressman Bartlett of Georgia de-
clared that unless the acts of every
judge were open and above board and
every opportunity given for the in-
vestigation of charges against a judge
on the bench there would be a demand
for the recall of judges, which could
not be resisted. Only by turning on
the light in all such cases could con-
fidence be restored regarding the judi-
ciary, was the idea of several men who
talked on the subject.

The President's Part.

The often discussed method of mak-
ing the tariff bill came up in the
senate during a colloquy between Nor-
ris of Nebraska and Williams of Missis-
sippi. Norris was criticizing the fram-
ing of the bill by the Democratic ca-
ucus.

"The senator never knew a Republi-
can bill framed by a secret caucus,"
said Williams. "I doubt if he ever
knew of a Republican bill that was
not framed outside of congress."

"I doubt whether this bill was framed
outside of the White House," retorted
Norris.

"The president has taken no part in
framing this bill except in connection
with two items," declared Williams.

"Those were the crux of the bill,"
replied Norris, "and the president had
more to do with framing the bill than
any one else, and the caucus obeyed
his will."

"Out For the Stuff."

Disclosures made by the lobby in-
quiry demonstrate that the desire to
obtain "easy money" makes crooks of
many men who are competent to earn
an honest living. "They are all out for
the stuff," was the comment of a man
who has been devoting much time to
the investigation. Much that is sor-
did, small and contemptible has been
developed during the hearing. But the
double dealing, the bribing of labor
leaders to turn informers against the
men who trust them is about the
worst chapter in the inquiry.

NEW HAVEN WRECK.
After Destroying Wooden Pull-
mans Engine Came to a Stop.

© 1913, by American Press Association.

The White Mountain Special's heavy lo-
comotive stopped still upright after it had
smashed the third car of the Bar Harbor
express. The front of the engine was
splintered. The rear Pullman car, which
was wooden, was shattered in thousands
of splinters and hurled aside by the rush
of the big engine.

HARRY THAW AGAIN WINS STAY

EMERY STIRS FIRE OF PROBERS

Compares Mulhail's Work to That of
Congressmen.

Washington, Sept. 6.—James A. Em-
ery, Washington representative of the
National Association of Manufactur-
ers, aroused the ire of members of
the house lobby investigating commit-
tee by an indirect comparison of the
methods of Martin M. Mulhail, the
lobbyist, with those of congressmen.

Following the reading of one of
Mulhail's letters in which the lobby-
ist referred to keeping members away
from an important house committee
meeting, Emery asked if a private citi-
zen had not as great a right to ask
a member to stay away from a com-
mittee meeting or avoid a vote on the
floor as a fellow congressman had.

He added it was well known to ev-
ery man who has served two years in
the houses that members frequently
made requests of this sort.

Representative Stafford declared that
in his eight years of serving in the
house he had never heard of such a
request, and Chairman Garrett said
that in his opinion a member could do
"few things worse" and that such
absence would be "an offense against
constituents and the public."

OPIUM IN HEELS OF SHOES

Hiding Places Discovered When cus-
toms Officers Search Steamers.

San Francisco, Sept. 6.—Search for
smuggled opium on the Pacific Mail
liner Manchuria and the Toyo Kisen
Kaisha liner Chiyu Maru is continuing.
Customs officers found a small quan-
tity of the drug on the Chiyu Maru.

That found on the Chiyu Maru was
packed in metal shoe heels. There
were a dozen of these so shaped that
they could be fitted into soles cut
out of leather heels.

At the meeting of the Ladies Aid
of the Presbyterian church held at
Mrs. Archie Purdy's this week a fare-
well present was made to Mrs. D. K.
Laurie. The gift was a silver bread
tray. Mrs. Laurie leaves soon with
her family for Portland, Oregon,
where they will make their future
home. Her activity in church circles
will cause her to be much missed.
Mrs. W. J. Lowrie made the presen-
tation speech.

Bill Crowell has figured out a new
law regarding automobiles. He pro-
poses that when a car alarms a far-
mer's horse that it is up to the mot-
orist to take his machine out in the
grass and hide it. The other day
Mr. Crowell came puffing along a
country road. Down the vista was
a boy swinging his hand at him and
crying, "Stop, Stop." Accordingly
Bill stopped. "I'll help you take the
horse by," said Mr. Crowell. "Oh!
Lord no, the horse is all right," said
the boy. "It's ma that's scared
about the car."

Mr. and Mrs. H. A. Flint returned
this afternoon to their home in Min-
neapolis. While here they visited at
the homes of Henry Spalding, Andy
Bivins, Mrs. E. E. Forsythe and oth-
ers. Mrs. Flint said as she was go-
ing away today: "It has been very
pleasant for us to visit in Brainerd,
our first home." Mr. and Mrs.
Flint came to Brainerd October 20,
1877 and Mr. Flint, or "Hank" as
all called him, was a conductor on
this division. The engineer pulling
his first train east was Charles Grew-
cock. Frank Farrell, handling the
throttle on Engine No. 70, pulled his
first train west. Other engineers on
his trains were Jim Goodman, Doc
Coventry, J. S. Gardner, Adam
Brown, Bob Carr, Al. Sovereign, now
superintendent at Staples, George
Wilson, now at Wadena, Gene Moore,
Tom Hooker and others.

The "Tom Thumb" wedding pre-
sented at the Baptist church last
evening drew a large attendance and
the total receipts amounted to \$51.

FEDERAL MINE
NORTH OF CUYUNA
Cuyuna-Duluth Iron Co. Authorizes
Directors to Have Shaft Work
Started Next Month

MR. HOLLISTER GOES TO AITKIN
Teachers of Cuyuna Hold Meeting on
Monday to Discuss School Mat-
ters—Other News

Cuyuna, Minn., September 5.—At
the annual meeting of the stockhold-
ers of the Cuyuna-Duluth Iron com-
pany the board of directors was in-
structed to sink a shaft on the Fed-
eral property adjoining the town of
Cuyuna either in October or Novem-
ber and to push the work as fast as
possible until the mine was on a
shipping basis.

Henry D. McNeil, assistant cashier
of the First State bank of Cuyuna,
has bought a lot in the Second addi-
tion from the Locker-Donahue com-
pany and will erect a residence. Mr.
McNeil recently returned from his
summer vacation trip which he spent
at St. Paul and Minneapolis.

B. L. Hollister, formerly editor of
the Cuyuna Range Miner, has leased
the Aitkin Republican and took pos-
session this week.

Miss Amanda Munson has returned
from a visit with her grandparents at
Little Falls.

Rev. Blanchette now preaches
every Sunday afternoon in the Meth-
odist church.

The Swedish Lutheran church
gave a chicken supper at the Presby-
terian church Saturday evening.

On the call of E. W. Zings, prin-
cipal of the Cuyuna school, a meet-
ing of the teachers was held on Mon-
day for the purpose of discussing
plans for the current year.

Homes \$50 to \$100 cash and \$10
to \$20 monthly. Nettleton.—Advt.

Mothers! Have Your Children Worms?
Are they feverish, restless, nervous,
irritable, dizzy or constipated? Do
they continually pick their nose or
grind their teeth? Have they cramp-
ing pains, irregular and ravenous ap-
petite? These are all signs of
worms. Worms not only cause your
child suffering, but stunt his mind
and growth. Give "Kickapoo Worm
Killer" at once. It kills and removes
the worms, improves your child's ap-
petite, regulates stomach, liver and
bowels. The symptoms disappear and
your child is made happy and heal-
thy, as nature intended. All drug-
gists or by mail, 25c. Kickapoo In-
dian Medicine Company, Philadelphia,
Pa., or St. Louis, Mo.—For sale by H.
P. Dunn.—Advt. tts

Y. M. C. A. NOTES
In the Y. M. C. A. gymnasium
Monday afternoon at half past four
there will be another very important
meeting for all the boys of Brainerd,
between the ages of twelve and six-
teen, who are interested in either
outdoor sports or gymnastics. There
will be lots of important and inter-
esting information given out free of
cost or obligation so every boy
should make a special effort to at-
tend this meeting and should not
forget to tell his boy friends who
might not have noticed this an-
nouncement.

The four o'clock Sunday afternoon
meetings at the Y. M. C. A. have
been resumed and tomorrow after-
noon Rev. Elbert E. Satterlee will
talk on, "Character," to all men and
women who can avail themselves of
the opportunity to attend. There
will be special singing and a most
cordial invitation is extended to
everyone.

Store your stoves and household
goods with D. M. Clark & Co.—Advt.

ROLLING THE LAWN.
Inexpensive Roller Can Be Made From
Terra Cotta Pipe.

Much ingenuity and considerable
invention are displayed in the produc-
tion of lawn rollers for domestic use.
These are sometimes made of cement
and frequently with the aid of terra
cotta or metal pipe of suitable length
open at both ends and in which the ce-
ment is poured, forming a solid roller.

Recently, says a correspondent of the
Scientific American, the writer saw a
homemade roller in which the trunnions
for the handle projected beyond the
cement, and these trunnions were
at the end of a rod which extended
through the cement and had its cen-
tral portion flattened and perforated
by bolt holes through which bolts
passed to secure a number of short
lengths of scantling which were used
as filling blocks to reduce the amount
of cement and thus lessen the weight
of the roller.

When terra cotta pipe is used it can,
when cracked, be entirely removed
from the roller, leaving the cement
roller intact. An ordinary lawn mower
handle with arms of wrought iron,
which can be made by any black-
smith, supplies a suitable handle for
the roller, and the entire cost is said
to be much less than the ordinary
commercial roller.

HEATING STOVES
Now is the Time to Buy
Do you want a bargain in a second hand heating stove? Better
come and make your selection now, while our stock is complete.
You can leave it here until you are ready for it. We also have the
new modern Dock ash base burner, that we invite you to see.
We will take your old stove in exchange.

At the meeting of the Ladies Aid of the Presbyterian church held at Mrs. Archie Purdy's this week a farewell present was made to Mrs. D. K. Laurie. The gift was a silver bread tray. Mrs. Laurie leaves soon with her family for Portland, Oregon, where they will make their future home. Her activity in church circles will cause her to be much missed. Mrs. W. J. Lowrie made the presentation speech.
Bill Crowell has figured out a new law regarding automobiles. He proposes that when a car alarms a farmer's horse that it is up to the motorist to take his machine out in the grass and hide it. The other day Mr. Crowell came puffing along a country road. Down the vista was a boy swinging his hand at him and crying, "Stop, Stop." Accordingly Bill stopped. "I'll help you take the horse by," said Mr. Crowell. "Oh! Lord no, the horse is all right," said the boy. "It's ma that's scared about the car."
Muresco Sanitary Wall finish is sold only by D. M. Clark & Co.—Adv't. 249tf
Mr. and Mrs. H. A. Flint returned this afternoon to their home in Minneapolis. While here they visited at the homes of Henry Spalding, Andy Bivins, Mrs. E. E. Forsythe and others. Mrs. Flint said as she was going away today: "It has been very pleasant for us to visit in Brainerd, our first home." Mr. and Mrs. Flint came to Brainerd October 20, 1877 and Mr. Flint, or "Hank" as all called him, was a conductor on this division. The engineer pulling his first train east was Charles Grewox. Frank Farrell, handling the throttle on Engine No. 70, pulled his first train west. Other engineers on his trains were Jim Goodman, Doc Coventry, J. S. Gardner, Adam Brown, Bob Carr, Al Sovereign, now superintendent at Staples, George Wilson, now at Wadena, Gene Moore, Tom Hooker and others.
The "Tom Thumb" wedding presented at the Baptist church last evening drew a large attendance and the total receipts amounted to \$51.

Lloyd Weaver, aged 3, son of Mr. and Mrs. Guy Weaver, was the bridegroom and his fair lady, the bride, was the youthful Miss Marjorie Oberst, three year old daughter of Mr. and Mrs. P. J. Oberst. The bridesmaid was the baby daughter of Mr. and Mrs. D. A. Haggard. Seventy children took part and their ages ranged from 3 to 12. The bridegroom surprised even his mother by the enjoyment he took out of the event. He picked up the train of his bride, threw kisses to the audience and indulged in other pleasantries which shook the orange blossoms on the brow of Miss Oberst. The song soloists were Nancy Haggard, Georgia Drexler, Wayne Curtis, Violet Murray, Iris Wolford, Clementine Small and Eugene Hitch. The whole event passed off with great eclat and was fun for the children and still more for the audience.
Homes \$50 to \$100 cash and \$10 to \$20 monthly. Nettleton.—Adv't. 81dtf-wtf

Mothers! Have Your Children Worms?
Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetite? These are all signs of worms. Worms not only cause your child suffering, but stunt its mind and growth. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists or by mail, 25c. Kickapoo Indian Medicine Company, Philadelphia, Pa., or St. Louis, Mo.—For sale by H. P. Dunn.—Adv't. 1tts

Y. M. C. A. NOTES
In the Y. M. C. A. gymnasium Monday afternoon at half past four there will be another very important meeting for all the boys of Brainerd, between the ages of twelve and sixteen, who are interested in either outdoor sports or gymnastics. There will be lots of important and interesting information given out free of cost or obligation so every boy should make a special effort to attend this meeting and should not forget to tell his boy friends who might not have noticed this announcement.
The four o'clock Sunday afternoon meetings at the Y. M. C. A. have been resumed and tomorrow afternoon Rev. Elbert E. Satterlee will talk on, "Character," to all men and women who can avail themselves of the opportunity to attend. There will be special singing and a most cordial invitation is extended to everyone.
Store your stoves and household goods with D. M. Clark & Co.—Adv't.

ROLLING THE LAWN.
Inexpensive Roller Can Be Made From Terra Cotta Pipe.
Much ingenuity and considerable invention are displayed in the production of lawn rollers for domestic use. These are sometimes made of cement and frequently with the aid of terra cotta or metal pipe of suitable length open at both ends and in which the cement is poured, forming a solid roller.
Recently, says a correspondent of the Scientific American, the writer saw a homemade roller in which the trunnions for the handle projected beyond the cement, and these trunnions were at the end of a rod which extended through the cement and had its central portion flattened and perforated by bolt holes through which bolts passed to secure a number of short lengths of scantling which were used as filling blocks to reduce the amount of cement and thus lessen the weight of the roller.
When terra cotta pipe is used it can, when cracked, be entirely removed from the roller, leaving the cement roller intact. An ordinary lawn mower handle with arms of wrought iron, which can be made by any blacksmith, supplies a suitable handle for the roller, and the entire cost is said to be much less than the ordinary commercial roller.

Gold the First Metal Used.
Gold was probably the first metal known to man because it is generally found native. The oldest metallic objects to which we can assign a probable date were found in a royal tomb at Nagada, in Egypt, supposed to have been that of King Menes. In one of the chambers were some bits of gold and a bead, a button and a fine wire of nearly pure copper. If the tomb was properly identified these objects were at least 6,300 years old at the time of their discovery. Nearly all of the ancient gold that has been examined contains enough silver to give it a light color. It was gathered by the ancients in the bed of the Pactolus and other streams of Asia Minor.

HEATING STOVES

Now is the Time to Buy
Do you want a bargain in a second hand heating stove? Better come and make your selection now, while our stock is complete. You can leave it here until you are ready for it. We also have the new modern Dock ash base burner, that we invite you to see. We will take your old stove in exchange.

GAS FRANCHISE FIRST READING

The J. P. Smith Gas Ordinance on its First Reading Polls a 5 to 4 Vote

THE TELEPHONE MATTER UP

A 5 to 4 Vote to Kill Mann Franchise—Ald. Anderson Changes Vote Aye to Nay

The adjourned session of the council held Friday evening took up as its first matter of business the telephone question which is agitating the city. Horace F. Mann, in 1906, secured the franchise to operate a telephone system in Brainerd and has organized a company, the Minnesota Telephone company, which operating under this franchise, has submitted to the council its plat of the streets on which it intends to run its lines.

Antagonism against the Minnesota Telephone company has been aroused by people who do not wish to see two exchanges in a city, asserting that one telephone company giving good service is enough in the field. On the other hand, the Minnesota Telephone company people have canvassed the city, have secured contracts for telephones on a cheap rate and promise to install an exchange as soon as the council accepts the plat they have presented. The Northwestern Telephone Co. has operated for years in Brainerd and has spent thousands of dollars on equipment and service.

Last evening there was introduced a resolution to the effect that Horace F. Mann had not complied with the terms of the franchise granted him and that the same should be annulled. This resolution was adopted by a 5 to 4 vote. Later Alderman Anderson changed his vote from aye to nay which would make 5 to 4 against the adoption.

The resolution, in part, stated that: "Whereas, the city council of the city of Brainerd, did on the first day of October, 1906, pass an ordinance known as Ordinance No. 208, granting to Horace F. Mann, his heirs and assigns, the privilege of establishing, maintaining and operating, within the limits of the city of Brainerd, for the term of twenty years from date of publication of said ordinance, a switchboard and telephone exchange, and for that purpose to erect necessary poles and stretch necessary wires thereon in or upon or over the streets of said city, and for no other purpose, under certain terms and conditions as therein specified, among which appear these express conditions:

"Sec. 5. If the said Horace F. Mann, his heirs or assigns, shall fail to establish at least a single line in to said city within one year from the publication of this ordinance, or shall fail to operate such exchange during a period of one year after establishment thereof, such failure shall be deemed and taken to be an abandonment of all rights and privileges hereunder and all the rights and privileges hereby granted shall thereupon cease.

"And whereas, the said Horace F. Mann, his heirs or assigns, have utterly failed and neglected to comply with the terms and conditions expressed in said Ordinance No. 208, and having during the whole period of time since the passage and publication of said ordinance failed and neglected to establish a single line into said city of Brainerd, or to establish or operate a telephone exchange, therefore in conclusion the resolution resolves that all the rights and privileges granted by the ordinance be revoked, annulled and terminated.

President Lagerquist gave up the chair to Vice-President Peterson and moved the adoption of the resolution, which was seconded by Alderman Gallupe. On a vote taken Aldermen Hess, Anderson, Betzold, Haake and Lagerquist voted aye. Aldermen Mahlum, Gallupe, Smith and Peterson voted nay. The resolution was declared adopted.

The gas franchise was then taken up and after its first reading Alderman Anderson asked leave to change his vote on the telephone resolution. President Lagerquist asked City Attorney Ryan if this could be done and the city attorney ruled there was nothing against such a procedure.

Alderman Anderson then had his

vote recorded nay, with the result that it now stood 5 nays and 4 ayes in regard to the adoption of the resolution.

The special gas committee, Geo. W. Hess, James R. Smith, L. Stallman, A. Mahlum, F. S. Gallupe and C. A. Lagerquist reported: Your committee to whom was referred the consideration of, and to report on, the matter of a gas franchise, beg leave to report that we have concluded our labors and compiled a franchise embodying sections drawn from the various franchises submitted. Which franchise seems to your committee to have provisions which will reasonably and adequately protect the city, without endangering the successful exploitation of capital. This franchise is submitted by Mr. J. P. Smith, and we recommend the same for your favorable consideration.

On a motion to give the franchise its first reading, moved by Alderman Mahlum and seconded by Alderman Smith, Aldermen Mahlum, Smith, Hess, Gallupe and President Lagerquist voted aye. Aldermen Peterson, Anderson, Betzold and Haake voted nay.

A. G. Whitney, president of the Light & Power Co., of St. Cloud, was present and before the Smith gas franchise was voted on, explained the franchise his company had submitted and its rates. His was primarily a franchise offering the best terms for fuel, lighting being considered a secondary matter.

"No company on earth would take up such a franchise as the Pillsbury-Ryan one on a moment's notice. It would require considerable time to consider it," said Mr. Whitney. Later in a conversation he characterized it as being a long-winded affair and that it went into too many details.

"A franchise for gas or any other utility," said Mr. Whitney to the council, "should be fair and equitable. It should be one which you can take before investors and float bonds on. A franchise should be broad gauged fair and equitable."

Mr. Smith hinted that he would not have the nerve to ask for an extension of time in the consideration of the gas franchise and that anyone else who wished to compete for the franchise should have been on the ground before this time.

Mr. Whitney claimed that his original ordinance had been pigeonholed. He had sent it to the council on or about July 7. He claimed he had not been given a fair show.

"I have something else to do than chase after franchises," said Mr. Whitney emphatically. "I want time to investigate the amended franchise. But I am assured I cannot accept it in its proposed form. I am no politician," said Mr. Whitney as he closed his remarks.

The report of the gas committee was accepted and then the Smith franchise was given its first reading.

During the telephone discussion Alderman Anderson wanted to change his vote from aye to nay.

"I want to change my vote," said Alderman Anderson to President Lagerquist.

"How is that, Mr. Ryan," said Mr. Lagerquist to the city attorney, "can the alderman change his vote?"

There was some more discussion and then Mr. Ryan said the alderman could record a change in his vote.

The Best Pain Killer

Bucklen's Arnica Salve when applied to a cut, bruise, sprain, burn or scald, or other injury of the skin will immediately remove all pain. E. E. Chamberlain of Clinton, Me., says: "It cures cuts and other injuries of the skin. As a healing remedy it equal don't exist." Will do good for you. Only 25c at H. P. Dunn's.

SELLS HIS INTEREST

Geo. H. Gardner Disposes of Interest in Brainerd Steam Laundry to C. A. Bevier

George H. Gardner has disposed of his interest in the Brainerd Steam Laundry to C. A. Bevier of Chicago, who has been managing the laundry up to this time. A large addition has been made to the laundry and after the machinery is installed in the new addition it will be up-to-date in every respect. The laundry is being well patronized and the work it is turning out is in every respect equal to the work done in the cities.

DEVELOPMENTS OF WEEK ON RANGE

Northwestern Improvement Co. Said to Have Taken Over Jamison & Peacock Land

JOHN WAHL CO'S. GOOD RECORD

Cuyuna-Duluth Iron Co. to Sink a Shaft on the Federal Property Near Town of Cuyuna

The report is given credence that the Northwestern Improvement company has taken over the Jamison & Peacock holdings north of Crosby and on which five drills of Cole & McDonald are now engaged in exploration work. Four are at work on the southeast quarter of the southwest quarter and one drill on the northwest quarter of the southeast quarter of section 1, township 46, range 29. Cole & McDonald are also drilling in the southwest quarter of the northeast quarter of section 33, township 47, range 29, said to be for the Minnesota Farm Land company, a newcomer on the Cuyuna iron range.

The Cuyuna Iron & Manganese Ore Co., of Duluth, has the Helmer Exploration company drilling in the northwest quarter of the northeast quarter and the northeast quarter of the northwest quarter of section 10, township 46, range 29. The property is situated in a most advantageous position. But 200 feet south is the big Pennington pit mine. Hole No. 20 is bottomed in manganese ore and is down 425 feet. Ore was struck 50 feet from the surface.

John Wahl, president of the company, visited the property in company with C. P. Meyers and C. H. Dibble, of Duluth. Mr. Wahl stated that another drill was to be added this week and placed at a point 400 feet southeast of Hole No. 20. It is his opinion that the eighty acres can be made a huge stripping proposition. To the east lies the property of the Mangan Iron & Steel Co. in the northeast quarter of the northeast quarter of section 10, township 46, range 29, where Gaylord & Guith are drilling. A large ore body has been proven up. The Armour No. 1 mine to the south will shortly be made a stripping proposition.

The Inland Steel mine known as the Thompson is stripping and has a shovel at work. The Soo has built out a spur to the north of the property.

The Pennington pit mine is a busy place. One shovel is at work at the ore body. In good digging from 75 to 100 cars of ore can be loaded daily. The average is 60 cars. Just at present the ore is very hard and frequent blasting is resorted to. The dipper pounds against the bank and as a rule can only be partly filled. Frank Sutherland is the engineer on this shovel, Frank Coran cranesman and Joe Cox fireman. There is a steep grade out of the pit and two cars of ore is the most that can be pulled up. The other shovel has been placed on top of the hill to the southwest and is cutting out an 80 foot strip. Dave Cushing is engineer, John Mickelson cranesman and John Smith fireman. The Pennington claims the world's record in the loading line. In handling overburden one shovel loaded 240 dump cars in 10 hours. These were 20 yard cars and it is claimed it's a world record which the Mesaba, Vermillion or the Panama canal has not equalled. The digging has been of the very best and under J. S. Lutes' supervision all work has been done efficiently without a bit of lost motion.

At the annual meeting of the stockholders of the Cuyuna-Duluth Iron Co. the old board of directors were unanimously re-elected as well as the old officers. The stockholders instructed the board of directors to commence sinking a shaft on the Federal property adjoining the town of Cuyuna either in October or November and to push the work as fast as possible until the mine was on a shipping basis. It is expected that the Northern Pacific railway will soon build to the proposed mine.

The Duluth-Brainerd Mining Co. has commenced shaft sinking in section 22, township 47, range 29 about three-fourths of a mile east of the Iron Mountain mine. Charles Fuller is in charge of the sinking with Capt. Pasco supervising as consulting engineer. The first set of timbers have been placed in the

shaft. A boiler has been set and another is being hauled out by teams. A blacksmith shop and tool house have been completed and other buildings are under construction. A large body of manganese ore has been located.

The Soo Line has about completed grading into the Iron Mountain mine. The railway crosses the southeast corner of Manganese townsite. A depot will soon be built there.

The Cuyuna-Mille Lacs and the Cuyuna-Duluth mines are increasing their shipping capacity to over a train of ore a day.

At Riverton the Pittsburgh Steel Ore Co. is having barges built on which to place its pumps and motors. It is reported that four steam shovels may be added to the hydraulic equipment. No ore will be shipped this year, but next year a big furnace in the east will take care of this one mine's output. A concentrator will be built at the mine. The shovels will be used to carry on the stripping in winter at a time when the hydraulic plant will have to cease operations. The ore body is exposed for some distance and numerous geologists have been photographing the exposed area. Above the ore is a sand with grains as hard as glass and white in color. To rub it in your hands is to rub the skin off. Locomotives have also been purchased and are expected soon to add to the equipment. Fred H. Baxter, of Superior, is putting in two sidetracks.

At the Kennedy mine at Cuyuna the piling up of large lots of timbers shows there will be no cessation of mining this winter. The mine is making a good record. The ore is said to be improving in quality.

The Adams mine at Oreland is all equipped for hoisting ore and the drifting will soon have progressed far enough to enable the mine to enter the shipping lists this season.

At Brainerd the Brainerd-Cuyuna Mining Co. is erecting buildings on its property near South Sixth street in the city limits about a mile south of the postoffice. Officers of the company are waiting for the Northern Pacific railway to build them a sidetrack.

At Barrows the Barrows mine of the Virginia Ore Mining Co. is hoisting ore and it is confidently expected that it will soon enter the shipping lists. Ore is shooting out in a steady stream.

At the Coleraine meeting of the Lake Superior Mining institute, J. S. Lutes, of Crosby, superintendent of the Pennington mine, was elected manager. Visitors on the Cuyuna range this week and last were Franklin W. Merritt of Minneapolis; Prof. E. H. Comstock of the University of Minnesota School of Mines who is compiling data for a map; Prof. Frank Leverett of the United States Geological survey who made an examination of the surface formation near Crosby and at Little Rabbit lake. T. F. Naughton, of St. Paul, visited the range with a view of investment.

The Minnesota & International railway will complete its cutoff at Brainerd by the middle of October. Additional yardage is being established west of Brainerd. All rails have been laid and ballasting will be under way next month.

SUNDAY SCHOOL INSTITUTE

A. M. Locker, Secretary of State Sunday School Association, to Arrange for Event

A. M. Locker, secretary of the Minnesota State Sunday School association, will arrive in the city to-night and expects to visit all the Sunday schools in the city tomorrow. Mr. Locker has just returned from the international convention of Sunday school workers in Switzerland.

Mr. Locker comes to arrange with the local workers for a Sunday school institute to be held in Brainerd in November. This will be a great event as the party will be made up of Sunday school experts.

It is expected to have a big banquet of adult Bible class workers on the second evening to be addressed by the new state worker in adult Bible class work and by Miss Kilpatrick of Corinth, Miss., who is the teacher of a large class of men which has sent workers to all parts of the country. While this event is yet some weeks in the future arrangements are already being made that it may be an unequalled success.

Paradoxical.
"I would walk on hot plowshares for your sake, my love."
"Yes, and the minute you tried it you would get cold feet."—Baltimore American.

The Style Book Should be seen tonight

We will place a beautiful suit of taupe eponge in the Style Book tonight.

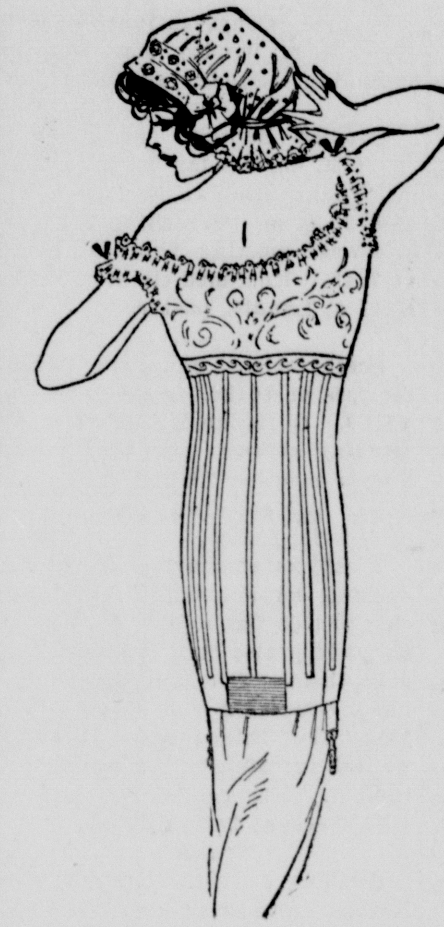

Taupe is one of the good shades of the season and it makes a beautiful suit in the peculiar finish of the eponge.

What is the style? We cannot give you a description that will do the suit justice, but we have it displayed in a manner that you will readily see the beauty of it.

Note how Practical

You have noticed, have you not, that the best dressed women are those who confine their purchases of suits to those which are more tailored than trimmed? The secret of our suit success is the splendid tailored garments we carry. Let us show you.

"MICHAEL'S"

We have received The new fall models of Gossard Corsets

They are beautiful—they produce the very latest lines asked for by Dame Fashion. They are by far the most comfortable corsets made. The new models are now in and we give you an illustration and description of one of them.

Model 205—The greatest value at five dollars to be obtained anywhere. It is made along the lines dictated by the highest fashion authorities, large waist, very low bust and long closely fitted skirt, the comfort of which is insured by an elastic section at the back, a feature new, in a corset at this price. Made in Mercerized Batiste. \$5.00

Other Gossard Models \$3.50, \$6.50, \$10, \$12.50, \$15, \$25.

THE U. C. T.'S ORGANIZE SEPT. 13

Grand Secretary Dresser and Dist. Dep. Capser to Attend the Installation Ceremonies

AT THE ODD FELLOWS HALL

Frank X. Gravelle, of Duluth, One of the Distinguished Visitors to be Present

On Saturday afternoon and evening, September 13, the United Commercial Travelers of America council will be instituted in Brainerd, the installation ceremonies taking place at the Odd Fellow hall.

Edward Anderson has been instrumental in having the order take root in Brainerd and every indication points to its flourishing in Brainerd and making this city a bright particular star in the constellation of councils of the order.

The U. C. T.'s are boosters. They boost their order, they boost their employers, they boost the line of goods they carry, they boost the town in which they make their home or maintain their headquarters, they boost the territory in which they travel. They are optimists, every one of them. They radiate good fellowship, good cheer and fraternity.

Grand Secretary J. M. Dresser and Dist. Deputy Capser, St. Paul, will be at the ceremonies and take a leading part in the initiation.

Frank X. Gravelle, of Duluth, will be one of the distinguished visitors present. Mr. Gravelle is a booster and the official hand-shaker of every "Boost for Duluth" trade excursion sent out from the Zenith City. He is the father of Crookston council of the U. C. T., a great Elk, a power in fraternalism, a prince of good fellows. The coming of Mr. Gravelle to Brainerd on this auspicious occasion is no mere event, it's an epoch.

And Mr. Gravelle will not be the only big gun. There will be others too who will unload their artillery of rhetoric and tell of the glories of membership in one of the best orders on earth, the U. C. T.

A committee on decorations and refreshments has been appointed from the candidates on the charter list of the council to be organized and they are Paul G. Clarkson, W. F. Kunitz, J. C. Higbe, Geo. Weaver and John A. Hoffbauer. The acting secretary is Edw. Anderson, Ed. is the "Candy Man" who put the speed in the speedometer which started the organization of the council.

"Be sure and remember the date of installation," said Mr. Anderson, in conclusion. "It's set for Saturday afternoon and evening, September 13. We want all in attendance, candidates and the members who will transfer to this council."

GAS FRANCHISE FIRST READING

Joe J. P. Smith Gas Ordinance on its First Reading Polls a 5 to 4 Vote

THE TELEPHONE MATTER UP A 5 to 4 Vote to Kill Mann Franchise—Ald. Anderson Changes Vote Aye to Nay

The adjourned session of the council held Friday evening took up as its first matter of business the telephone question which is agitating the city. Horace F. Mann, in 1906, secured the franchise to operate a telephone system in Brainerd and has organized a company, the Minnesota Telephone company, which operating under this franchise, has submitted to the council its plat of the streets on which it intends to run its lines.

Antagonism against the Minnesota Telephone company has been aroused by people who do not wish to see two exchanges in a city, asserting that one telephone company giving good service is enough in the field. On the other hand, the Minnesota Telephone company people have canvassed the city, have secured contracts for telephones on a cheap rate and promise to install an exchange as soon as the council accepts the plat they have presented. The Northwestern Telephone Co. has operated for years in Brainerd and has spent thousands of dollars on equipment and service.

Last evening there was introduced a resolution to the effect that Horace F. Mann had not complied with the terms of the franchise granted him and that the same should be annulled. This resolution was adopted by a 5 to 4 vote. Later Alderman Anderson changed his vote from aye to nay which would make 5 to 4 against the adoption.

The resolution, in part, stated that: "Whereas, the city council of the city of Brainerd, did on the first day of October, 1906, pass an ordinance known as Ordinance No. 208, granting to Horace F. Mann, his heirs and assigns, the privilege of establishing, maintaining and operating, within the limits of the city of Brainerd, for the term of twenty years from date of publication of said ordinance, a switchboard and telephone exchange, and for that purpose to erect necessary poles and stretch necessary wires thereon in or upon or over the streets of said city, and for no other purpose, under certain terms and conditions as therein specified, among which appear these express conditions:

"Sec. 5. If the said Horace F. Mann, his heirs or assigns, shall fail to establish at least a single line into said city within one year from the publication of this ordinance, or shall fail to operate such exchange during a period of one year after establishment thereof, such failure shall be deemed and taken to be an abandonment of all rights and privileges hereunder and all the rights and privileges hereby granted shall thereupon cease.

"And whereas, the said Horace F. Mann, his heirs or assigns, have utterly failed and neglected to comply with the terms and conditions expressed in said Ordinance No. 208, and having during the whole period of time since the passage and publication of said ordinance failed and neglected to establish a single line into said city of Brainerd, or to establish or operate a telephone exchange, therefore in conclusion the resolution resolves that all the rights and privileges granted by the ordinance be revoked, annulled and terminated.

President Lagerquist gave up the chair to Vice-President Peterson and moved the adoption of the resolution, which was seconded by Alderman Gallupe. On a vote taken Aldermen Hess, Anderson, Betzold, Haake and Lagerquist voted aye. Aldermen Mahlum, Gallupe, Smith and Peterson voted nay. The resolution was declared adopted.

The gas franchise was then taken up and after its first reading Alderman Anderson asked leave to change his vote on the telephone resolution. President Lagerquist asked City Attorney Ryan if this could be done and the city attorney ruled there was nothing against such a procedure.

Alderman Anderson then had his

vote recorded nay, with the result that it now stood 5 nays and 4 ayes in regard to the adoption of the resolution.

The special gas committee, Geo. W. Hess, James R. Smith, L. Stellan, A. Mahlum, F. S. Gallupe and C. A. Lagerquist reported: Your committee to whom was referred the consideration of, and to report on, the matter of a gas franchise, beg leave to report that we have concluded our labors and compiled a franchise embodying sections drawn from the various franchises submitted. Which franchise seems to your committee to have provisions which will reasonably and adequately protect the city, without endangering the successful exploitation of capital. This franchise is submitted by Mr. J. P. Smith, and we recommend the same for your favorable consideration.

On a motion to give the franchise its first reading, moved by Alderman Mahlum and seconded by Alderman Smith, Aldermen Mahlum, Smith, Hess, Gallupe and President Lagerquist voted aye. Aldermen Peterson, Anderson, Betzold and Haake voted nay.

A. G. Whitney, president of the Light & Power Co., of St. Cloud, was present and before the Smith gas franchise was voted on, explained the franchise his company had submitted and its rates. His was primarily a franchise offering the best terms for fuel, lighting being considered a secondary matter.

"No company on earth would take up such a franchise as the Pillsbury-Ryan one on a moment's notice. It would require considerable time to consider it," said Mr. Whitney. Later in a conversation he characterized it as being a long-winded affair and that it went into too many details.

"A franchise for gas or any other utility," said Mr. Whitney to the council, "should be fair and equitable. It should be one which you can take before investors and float bonds on. A franchise should be broad, guaged fair and equitable." Mr. Smith hinted that he would not have the nerve to ask for an extension of time in the consideration of the gas franchise and that anyone else who wished to compete for the franchise should have been on the ground before this time.

Mr. Whitney claimed that his original ordinance had been pigeonholed. He had sent it to the council on or about July 7. He claimed he had not been given a fair show.

"I have something else to do than chase after franchises," said Mr. Whitney emphatically. "I want time to investigate the amended franchise. But I am assured I cannot accept it in its proposed form. I am no politician," said Mr. Whitney as he closed his remarks.

The report of the gas committee was accepted and then the Smith franchise was given its first reading.

During the telephone discussion Alderman Anderson wanted to change his vote from aye to nay.

"I want to change my vote," said Alderman Anderson to President Lagerquist.

"How is that, Mr. Ryan," said Mr. Lagerquist to the city attorney, "can the alderman change his vote?"

There was some more discussion and then Mr. Ryan said the alderman could record a change in his vote.

The Best Pain Killer

SELLS HIS INTEREST

Geo. H. Gardner Disposes of Interest in Brainerd Steam Laundry to C. A. Bevier

George H. Gardner has disposed of his interest in the Brainerd Steam Laundry to C. A. Bevier of Chicago, who has been managing the laundry up to this time. A large addition has been made to the laundry and after the machinery is installed in the new addition it will be up-to-date in every respect. The laundry is being well patronized and the work it is turning out is in every respect equal to the work done in the cities.

DEVELOPMENTS OF WEEK ON RANGE

Northwestern Improvement Co. Said to Have Taken Over Jamison & Peacock Land

JOHN WAHL CO'S. GOOD RECORD
Cuyuna-Duluth Iron Co. to Sink a Shaft on the Federal Property Near Town of Cuyuna

The report is given credence that the Northwestern Improvement company has taken over the Jamison & Peacock holdings north of Crosby and on which five drills of Cole & McDonald are now engaged in exploration work. Four are at work on the southeast quarter of the southwest quarter and one drill on the northwest quarter of the southeast quarter of section 1, township 46, range 29. Cole & McDonald are also drilling in the southwest quarter of the northeast quarter of section 33, township 47, range 29, said to be for the Minnesota Farm Land company, a newcomer on the Cuyuna iron range.

The Cuyuna Iron & Manganese Ore Co., of Duluth, has the Helmer Exploration company drilling in the northwest quarter of the northeast quarter and the northeast quarter of the northwest quarter of section 10, township 46, range 29. The property is situated in a most advantageous position. But 200 feet south is the big Pennington pit mine. Hole No. 20 is bottomed in manganese ore and is down 425 feet. Ore was struck 50 feet from the surface.

John Wahl, president of the company, visited the property in company with C. P. Meyers and C. H. Dibble, of Duluth. Mr. Wahl stated that another drill was to be added this week and placed at a point 400 feet southeast of Hole No. 20. It is his opinion that the eighty acres can be made a huge stripping proposition. To the east lies the property of the Mangan Iron & Steel Co. in the northeast quarter of the northeast quarter of section 10, township 46, range 29, where Gaylord & Guith are drilling. A large ore body has been proven up. The Armour No. 1 mine to the south will shortly be made a stripping proposition.

The Inland Steel mine known as the Thompson is stripping and has a shovel at work. The Soo has built out a spur to the north of the property.

The Pennington pit mine is a busy place. One shovel is at work at the ore body. In good digging from 75 to 100 cars of ore can be loaded daily. The average is 60 cars. Just at present the ore is very hard and frequent blasting is resorted to. The dipper pounds against the bank and as a rule can only be partly filled. Frank Sutherland is the engineer on this shovel, Frank Coran cranesman and Joe Cox fireman. There is a steep grade out of the pit and two cars of ore is the most that can be pulled up. The other shovel has been placed on top of the hill to the southwest and is cutting out an 80 foot strip. Dave Cushing is engineer, John Mickelson cranesman and John Smith fireman. The Pennington claims the world's record in the loading line. In handling overburden one shovel loaded 240 dump cars in 10 hours. These were 20 yard cars and it is claimed it's a world record which the Mesaba, Vermillion or the Panama canal has not equalled. The digging has been of the very best and under J. S. Lutes' supervision all work has been done efficiently without a bit of lost motion.

At the annual meeting of the stockholders of the Cuyuna-Duluth Iron Co. the old board of directors were unanimously re-elected as well as the old officers. The stockholders instructed the board of directors to commence sinking a shaft on the Federal property adjoining the town of Cuyuna either in October or November and to push the work as fast as possible until the mine was on a shipping basis. It is expected that the Northern Pacific railway will soon build to the proposed mine.

The Duluth-Brainerd Mining Co. has commenced shaft sinking in section 32, township 47, range 23 about three-fourths of a mile east of the Iron Mountain mine. Charles Fuller is in charge of the sinking with Capt. Pasco supervising as consulting engineer. The first set of timbers have been placed in the

shaft. A boiler has been set and another is being hauled out by teams. A blacksmith shop and tool house have been completed and other buildings are under construction. A large body of manganese ore has been located.

The Soo Line has about completed grading into the Iron Mountain mine. The railway crosses the southeast corner of Manganese townsite. A depot will soon be built there.

The Cuyuna-Mille Laes and the Cuyuna-Duluth mines are increasing their shipping capacity to over a train of ore a day.

At Riverton the Pittsburgh Steel Ore Co. is having barges built on which to place its pumps and motors. It is reported that four steam shovels may be added to the hydraulic equipment. No ore will be shipped this year, but next year a big furnace in the east will take care of this one mine's output. A concentrator will be built at the mine. The shovels will be used to carry on the stripping in winter at a time when the hydraulic plant will have to cease operations. The ore body is exposed for some distance and numerous geologists have been photographing the exposed area. Above the ore is a sand with grains as hard as glass and white in color. To rub it in your hands is to rub the skin off. Locomotives have also been purchased and are expected soon to add to the equipment. Fred H. Baxter, of Superior, is putting in two sidetracks.

At the Kennedy mine at Cuyuna the piling up of large lots of timbers shows there will be no cessation of mining this winter. The mine is making a good record. The ore is said to be improving in quality.

The Adams mine at Oreland is all equipped for hoisting ore and the drifting will soon have progressed far enough to enable the mine to enter the shipping lists this season.

At Brainerd the Brainerd-Cuyuna Mining Co. is erecting buildings on its property near South Sixth street in the city limits about a mile south of the postoffice. Officers of the company are waiting for the Northern Pacific railway to build them a sidetrack.

At Barrows the Barrows mine of the Virginia Ore Mining Co. is hoisting ore and it is confidently expected that it will soon enter the shipping lists. Ore is shooting out in a steady stream.

At the Coleraine meeting of the Lake Superior Mining Institute, J. S. Lutes, of Crosby, superintendent of the Pennington mine, was elected manager. Visitors on the Cuyuna range this week and last were Franklin W. Merritt of Minneapolis; Prof. E. H. Comstock of the University of Minnesota School of Mines who is compiling data for a map; Prof. Frank Leverett of the United States Geological survey who made an examination of the surface formation near Crosby and at Little Rabbit lake. T. F. Naughton, of St. Paul, visited the range with a view of investment.

The Minnesota & International railway will complete its cutoff at Brainerd by the middle of October. Additional yardage is being established west of Brainerd. All rails have been laid and ballasting will be under way next month.

SUNDAY SCHOOL INSTITUTE

A. M. Locker, Secretary of State Sunday School Association, to Arrange for Event

A. M. Locker, secretary of the Minnesota State Sunday School association, will arrive in the city tonight and expects to visit all the Sunday schools in the city tomorrow. Mr. Locker has just returned from the international convention of Sunday school workers in Switzerland.

Mr. Locker comes to arrange with the local workers for a Sunday school institute to be held in Brainerd in November. This will be a great event as the party will be made up of Sunday school experts.

It is expected to have a big banquet of adult Bible class workers on the second evening to be addressed by the new state worker in adult Bible class work and by Miss Kilpatrick of Corinth, Miss., who is the teacher of a large class of men which has sent workers to all parts of the country. While this event is yet some weeks in the future arrangements are already being made that it may be an unqualified success.

Paradoxical

"I would walk on hot ploverheads for your sake, my love."
"Yes, and the minute you tried it you would get cold feet."—Baltimore American.

The Style Book Should be seen tonight

We will place a beautiful suit of taupe eponge in the Style Book tonight.

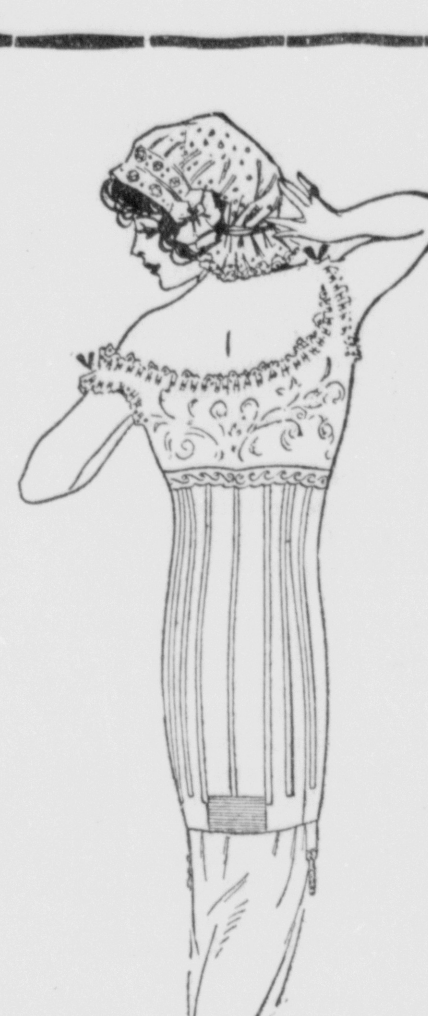

Taupe is one of the good shades of the season and it makes a beautiful suit in the peculiar finish of the eponge.

What is the style? We cannot give you a description that will do the suit justice, but we have it displayed in a manner that you will readily see the beauty of it.

Note how Practical

You have noticed, have you not, that the best dressed women are those who confine their purchases of suits to those which are more tailored than trimmed? The secret of our suit success is the splendid tailored garments we carry. Let us show you.

"MICHAEL'S"

We have received The new fall models of Gossard Corsets

They are beautiful—they produce the very latest lines asked for by Dame Fashion. They are by far the most comfortable corsets made. The new models are now in and we give you an illustration and description of one of them.

It is made along the lines dictated by the highest fashion authorities, large waist, very low bust and long closely fitted skirt, the comfort of which is insured by an elastic section at the back, a feature new, in a corset at this price. Made in Mercerized Batiste. \$5.00

Other Gossard Models \$3.50, \$6.50, \$10, \$12.50, \$15, \$25.

"MICHAEL'S"

THE U. C. T.'S ORGANIZE SEPT. 13

Grand Secretary Dresser and Dist. Dep. Capser to Attend the Installation Ceremonies

AT THE ODD FELLOWS HALL
Frank X. Gravelle, of Duluth, One of the Distinguished Visitors to be Present

On Saturday afternoon and evening, September 13, the United Commercial Travelers of America council will be instituted in Brainerd, the installation ceremonies taking place at the Odd Fellow hall.

Edward Anderson has been instrumental in having the order take root in Brainerd and every indication points to its flourishing in Brainerd and making this city a bright particular star in the constellation of councils of the order.

The U. C. T.'s are boosters. They boost their order, they boost their employers, they boost the line of goods they carry, they boost the town in which they make their home or maintain their headquarters, they boost the territory in which they travel. They are optimists, every one of them. They radiate good fellowship, good cheer and fraternity.

Grand Secretary J. M. Dresser and Dist. Deputy Capser, St. Paul, will be at the ceremonies and take a leading part in the initiation.

Frank X. Gravelle, of Duluth, will be one of the distinguished visitors present. Mr. Gravelle is a booster and the official hand-shaker of every "Boost for Duluth" trade excursion sent out from the Zenith City. He is the father of Crookston council of the U. C. T., a great Elk, a power in fraternalism, a prince of good fellows. The coming of Mr. Gravelle to Brainerd on this auspicious occasion is no mere event, it's an epoch.

And Mr. Gravelle will not be the only big gun. There will be others too who will unload their artillery of rhetoric and tell of the glories of membership in one of the best orders on earth, the U. C. T.

A committee on decorations and refreshments has been appointed from the candidates on the charter list of the council to be organized and they are Paul G. Clarkson, W. F. Kunitz, J. C. Higbe, Geo. Weaver and John A. Hoffbauer. The acting secretary is Edw. Anderson. Ed. is the "Candy Man" who put the speed in the speedometer which started the organization of the council.

"Be sure and remember the date of installation," said Mr. Anderson, in conclusion. "It's set for Saturday afternoon and evening, September 13. We want all in attendance, candidates and the members who will transfer to this council."

No. 1282.

FORFEITED TAX SALE

Notice of Expiration of Redemption
Office of County Auditor, County of
Crow Wing, State of Minnesota.

To Chris Schuler—

You are hereby notified that the following pieces or parcels of land, situated in the County of Crow Wing, State of Minnesota, and known and described as follows, to-wit: Lots eight (8), nine (9), ten (10), eleven (11), twelve (12), and thirteen (13) of Block three (3), and the above parcels of land, were duly offered for sale, and no one bidding upon said offer an amount equal to that for which said pieces and parcels were subject to be sold, to-wit: the sum of Sixty-eight cents for said lot eight; Sixty-eight cents for said lot nine; Sixty-eight cents for said lot ten; Sixty-eight cents for said lot eleven; Sixty-eight cents for said lot twelve; and Sixty-eight cents for said lot thirteen, the same were duly bid in for the State of Minnesota for said sums.

That thereafter and on the 27th day of August, A. D. 1913, the said pieces or parcels of land, not then having been redeemed from said sale, and having then become the absolute property of the State of Minnesota, were sold and conveyed to public sale by the County Auditor of said County pursuant to the order and direction of the State Auditor of the State of Minnesota, and in accordance with the provisions of the statute in such case made, and provided, for the sum of Five dollars and twenty-one cents for said lot eight; Five dollars and twenty-one cents for said lot nine; Five dollars and twenty-one cents for said lot ten; Five dollars and twenty-one cents for said lot eleven; Five dollars and twenty-one cents for said lot twelve; and Five dollars and twenty-one cents for said lot thirteen, the same were duly bid in for the State of Minnesota for said sums.

That the time for the redemption of said pieces or parcels of land from said tax sale will expire sixty (60) days after service of this notice and the filing of proof of such service in my office. Witness my hand and seal of office this 28th day of August, A. D. 1913.

(Auditor's Seal) J. F. SMART,
Auditor Crow Wing County, Minnesota.

No. 1292.

FORFEITED TAX SALE
Notice of Expiration of Redemption
Office of County Auditor, County of
Crow Wing, State of Minnesota.

To J. R. Howes—

You are hereby notified that the following pieces or parcels of land, situated in the County of Crow Wing, State of Minnesota, and known and described as follows, to-wit: Lot five (5), Block Two (2), and Lot six (6) and seven (7), Block Three (3), all in Howes and Spalding's Addition to the City of Brainerd, are now assessed in your name.

That on the 12th day of May, A. D. 1912, at a sale of land pursuant to the real estate tax judgment duly given and made in and by the District Court of the County of Crow Wing, in proceedings to enforce the payment of taxes delinquent upon said real estate for the year A. D. 1910, for said County of Crow Wing, the above described pieces or parcels of land were duly offered for sale, and no one bidding upon said offer an amount equal to that for which said pieces and parcels were subject to be sold, to-wit: the sum of sixty-eight cents for said lot five; Sixty-eight cents for said lot six; and Sixty-eight cents for said lot seven, the same were duly bid in for the State of Minnesota for said sums.

That thereafter and on the 11th day of August, A. D. 1913, the said pieces or parcels of land, not then having been redeemed from said sale, and having then become the absolute property of the State of Minnesota, were sold and conveyed to public sale by the County Auditor of said County pursuant to the order and direction of the State Auditor of the State of Minnesota, and in accordance with the provisions of the statute in such case made, and provided, for the sum of \$5.77 for the said lot 5, Block 2, \$2.79 for the said lot 6, Block 2, and \$2.21 for the said lot 7, Block 3, the same were duly bid in for the State of Minnesota for said sums.

That the time for the redemption of said pieces or parcels of land from said tax sale will expire sixty (60) days after service of this notice and the filing of proof of such service in my office. Witness my hand and seal of office this 12th day of August, A. D. 1913.

(Seal) Auditor Crow Wing County, Aug. 28-30 Sept. 6.

CROSBY SCHOOLS HAVE 570 PUPILS

Three New Departments Added to the Schools—A Corps of Experienced Teachers

ROYAL LEAGUE IS ORGANIZED

The Cuyuna Range Power Co. is Extending its Wires to "Pine Grove" Addition

Crosby, Minn., Sept. 5.—Three new departments have been added to the Crosby schools, being a kindergarten for children between five and six years of age, a music course under the direction of a supervisor of music and an ungraded room. According to the school census there are 570 pupils.

A lodge of the Royal League fraternal order has been organized by H. H. Stone.

Louis Lefko, who has been attending the university of Arizona for the past two years, has returned home.

Miss Maude Fischer, of Superior, is visiting Miss Norma Ingalls.

Charles Jacobson, of Duluth, has charge of the construction of the new graded school.

Mr. and Mrs. John Moir, of Duluth, visited at the Ira W. Smith summer home on Crosby beach.

Mrs. A. F. Cross has been ill for some time at her summer home on Serpent lake.

A night crew has been put on the Thompson mine of the Inland Steel company.

Mrs. B. B. Gaylord visited in Brainerd Wednesday.

John Wahl, of the Wahl Candy Co., C. P. Meyers, a real estate man, and C. H. Dibbell, of Duluth, visited Crosby and the Cuyuna iron range, making the tour in an automobile.

It has been found that the mine schist makes a good binder for a road. When added to the gravel it makes an admirable roadbed.

Mr. and Mrs. Fred D. Vibort, of Cloquet, were recent visitors.

Franklin W. Merritt of Minneapolis, and Thomas A. Merritt, of Duluth, were on the range this week.

The Cuyuna Range Power company is extending its wires to "Pine Grove" addition on the lake shore.

The Methodist Ladies' Aid society met with Mrs. Fred Stearns on Thursday afternoon.

There is more Catarrh in this section of the country than in other sections put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c.

Take Hall's Catarrh Pills for constipation.

How to Make Oil of Swallows.

Among the valued specifics of a bygone age was oil of swallows. In the "Countess of Kent's Choice Manual" (1676) there are the following curious directions for making it: "Take one handful of mother thyme, of lavender cotton and strawberry leaves of each alike, four swallows, feathers and all together well bruised, three ounces of sallet oil, beat the herbs and the swallows, feathers and all together, until they be so small that you can see no feathers, then put in the oil and stir them well together, and seeth them in a posnet and strain them through a canvas cloth and so keep it for your use."

Two parts of ammonia to one of turpentine will soften old paint or varnish and make its removal easy.

Minister Praises This Laxative

Rev. H. Stubbsville of Allison, Ia., in praising Dr. King's New Life Pills for constipation, writes: "Dr. King's New Life Pills are such perfect pills no home should be without them." No better regulator for the liver and bowels. Every pill guaranteed. Try them. Price 35c. at H. P. Dunn's—Advt.

IF WOMEN ONLY KNEW

What a Heap of Happiness It Would Bring to Brainerd Homes

Hard to do housework with an aching back.

Brings you hours of misery at leisure or at work.

If women only knew the cause—that

Backache pains often come from weak kidneys.

"Would save much needless woe. Doan's Kidney Pills are for weak kidneys."

Many residents of this vicinity endorse them.

Mrs. Hattie Wandrie, Crosby, Minn., says: "For the past two or three years I suffered a great deal from pains through the small of my back and sides. I was also subject to headaches and my whole system seemed to be disordered. The kidney secretions were irregular in passage and caused me much annoyance. I finally procured a supply of Doan's Kidney Pills and in a short time after beginning to use them, I felt better in every way. Doan's Kidney Pills have my highest endorsement."

For sale by all dealers. Price 60 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Where to Worship

Christian Scientists services every Sunday at 11 o'clock A. M., Elks hall, Wednesday evening 8 o'clock. All are welcome.

SHERIFF'S SALE

Notice is hereby given that under and by virtue of a judgment entered in the district court in and for Crow Wing county, Minnesota, on July 17th, 1913, in an action to foreclose a mechanics lien wherein Kellogg Mackay Company a corporation, was plaintiff and William E. Maley and others were defendants a certified transcript of which judgment has been delivered to me for execution I shall sell subject to confirmation by the court at public auction to the highest bidder for cash at the sheriff's office in the county court house in Brainerd, Crow Wing county, Minnesota, on Monday, October twentieth (20), 1913, at two o'clock p. m., real estate known and described as lots numbered twenty-one (21) and twenty-two (22) in block numbered two (2) in the town (now village) of Crosby in said county according to the plat thereof on file in the office of the register of titles of said county the title to said lots being registered under the provisions of chapter 65 R. L. 1905 and the certificate of title being number 483 of record in volume 2 at page 183.

Dated September 6, 1913.

FRED J. REID,

Sheriff of Crow Wing County, Minn. July 18-16

YOUR BUSINESS TRAINING is the one kind of schooling you will use all your life long. The doctor needs it as well as the farmer. Now-a-days farming is thought of as a business—not as an occupation that anyone can go into. The trained man succeeds today. Are you going to be a trained man? YOU WILL BE if you take your business course in the

Little Falls BUSINESS COLLEGE
IT'S THE SCHOOL FOR YOU.

Write today or telephone for particulars at our expense.

Special Bargains

For a Quick Sale

A good six room house, re-papered, re-painted inside and out and put in first class condition, city water and a fine brick cellar. Two lots on a corner, 50x140 feet each, giving one plenty of ground for a garden. Price \$1200.00 on very easy payments, or will exchange for good farm land. This is worth investigating.

A snug five room cottage, with bath and toilet, everything in first class condition and up-to-date. Two lots fronting east, and only two blocks from the court house. Price \$1800.00 for a quick sale. Owner "out west" and wants money. Look this up.

A five room house and one corner lot on South 5th Street, all in good repair with city water in the house. Price \$500.00. Half cash, balance on payments at 6 per cent.

A large frame house and two lots fronting east on North 6th St. just north of the Park. Price \$1100.00. Very easy payments. Here is a chance to get a home on the north side where values are increasing rapidly at this time.

See us for other bargains in either city property or lands. What have you to exchange?
